

# SelectScience® Editorial Calendar 2024

	January	February	March	April	May	June	July	August	September	October	November	December
<b>Online Summits</b>			Analytical Science Summit						Biopharma Summit	CLINICAL24	CLINICAL24 Cancer and Immunology Research Summit	CLINICAL24
<b>The Show Experience with SelectScience</b>		SLAS Pittcon		Analytica	SLAS Europe	ASMS ACHEMA	ADLM					
<b>Conference attendance</b>				ECCMID						PharmSci 360		
<b>Accelerating Science Forums</b>		Cell & Gene Therapy					PFAS					
<b>Accelerating Science Features</b>		How to cure the incurable with cell and gene therapy (Information available on request)					How to protect the environment with clean science (Information available on request)					
						Olympics (Information available on request)						
<b>Editorial Features</b>	NEW: Cell Line Development	Biopharmaceuticals	NEW: Spatial Biology	NEW: Environmental Sample Workflows and Analysis	NEW: Automation, robotics & the connected laboratory	NEW: Environmental Analysis, Pesticides & Water Testing	Battery Testing	Cancer Research & Therapeutics	NEW: 3D Cell Culture	Lab Sustainability	NEW: Pharmaceutical Developments	Materials Characterization
<b>(Additional features available on-request for premier sponsorship)*</b>		NEW: Ensuring Food Quality, Safety & Authenticity	NEW: Green Labs: Save Energy & Reduce Waste	NEW: Advances in Bioanalysis	NEW: Liquid Biopsies & Companion Diagnostics	NEW: Infectious Disease & Antimicrobial Resistance	NEW: Gene Editing: CRISPR & Beyond	NEW: Microplastics, PFAS & Contamination	NEW: Cell Line Development	NEW: Bioprocessing	NEW: Next Generation Diagnostics Solutions for Clinical Laboratories	NEW: The Point of Care Ecosystem
<b>*Additional topics could include:</b>	The Microbiome; Clinical Mass Spectrometry; Transformative Technologies; Rare Diseases; Cell Line Development; Biosensors; Multi-omics and more											
<b>How-to-Buy eBooks</b>			Microplate Readers		Next Generation Sequencing Technology	UV/VIS Spectrophotometers	Oligonucleotide Purification and Quantification Technology	Cell Imaging Technology	Liquid Handling Technology	Biophysical Characterization Technology	Water Purification Technology	Microscopy Equipment
<b>(Additional titles available on-request for premier sponsorship)</b>			Cell Counting Technology			NEW: Clinical Mass Spectrometry for the Modern Hospital		Clinical Lab Automation Technology	Real Time Mass Spectrometers	3D Biology Solutions	HPLC Technology	
										NEW: Digital Morphology & Contemporary Hematology Solutions
